

**DURACELL® ULTRA, X2POWER® & XTREME®
ATV, AUTOMOTIVE, GOLF CART, LAWN &
GARDEN, MARINE, MOTORCYCLE,
PERSONAL WATERCRAFT, SNOWMOBILE
& TRUCK BATTERIES
WARRANTY COVERAGE
POLICY**

Duracell® Ultra, X2Power®, and Xtreme® ATV, automotive, golf cart, lawn and garden, marine, motorcycle, personal watercraft, snowmobile and truck batteries are covered by a limited warranty against manufacturer defects in materials and workmanship.

The warranty coverage available is a free replacement period. Should the battery fail due to a manufacturing defect within the free replacement period, the battery will be replaced at no cost with a new battery of comparable performance. Batteries replaced during the free replacement period will continue to be covered by the original warranty from the original purchase date.* Cash reimbursement is not available. X2Power® commercial warranty is the same as retail warranty. If a warranty situation arises outside of a Batteries Plus® store shopping area, call 1-800-677-8278 for assistance.

**Only two free replacements are allowed through the original battery purchase and receipt.*

Warranty Protection is Subject to the Following Guidelines:

- Warranty coverage is not transferrable (it applies to the original purchaser only), and requires a proof of purchase or original receipt.
- Warranty coverage applies to original application only. A battery used in multiple applications voids the warranty.
- A warranty claim may require product analysis and/or charging prior to issuance of a replacement, which may take up to two (2) business days to process.
- An industry standard capacity or load test will be used to determine if the battery is at least 80% of original rated capacity in which case it will not be considered defective and will not qualify for a replacement. The battery may require charging prior to performing a capacity or load test.
- If you store or do not use your vehicle or battery for a period in excess of one (1) month, the warranty is void unless you fully charge your battery at least once a month with a maintenance-float charger.
- Prolonged storage of vehicles (including, but not limited to, cars, trucks, lawn tractors, motorcycles, ATV's, boats, motorhomes, campers or snowmobiles) with computerized engine control units, alarms, GPS or other electrical devices that require continuous battery power to support active memories must have this power drain offset by fully charging your battery monthly with an appropriate maintenance-float charger. Overcharging the battery may result in irreversible damage.
- A battery with an open circuit voltage (OCV) of equal to or less than 10.0V for 12.0V rated batteries, equal to or less than 6.8V for 8.0V rated batteries, and equal to or less than 5.0V for 6.0V rated batteries will be charged. If after completing the charge cycle, the battery OCV is less than the manufacturer's minimum voltage standard, the battery will be deemed as over discharged and void warranty due to misuse and/or neglect.
- The warranties for the specific products are the exclusive and the only warranties that we provide with respect to the products we sell.

X2Power Lithium Batteries:

- Battery should only be used in non-modified OEM drive trains or charging system. Warranty is void if misused.
- Only use a charger without a desulfation mode. Warranty void if misused.

Warranty Protection Does NOT Cover:

- Discharged batteries that can be recharged and returned to service.
- Cost for recharging or use of rental battery or vehicle.
- Labor costs for battery removal and installation.
- Damage due to charging system failure, alteration, negligence, abuse, misuse, accident, improper installation or freezing.
- Loss of time, inconvenience, loss of vehicle or other incidental or consequential damages.
- A battery that does not meet or exceed original equipment specifications. Batteries of an electrical size or capacity smaller than the one specified by the vehicle manufacturer will not be covered.
- Battery has physical damage present (loose or damaged posts/terminals, holes or cracks in the case, misapplication or improper installation).
- Overcharging, undercharging, charging or installing in reverse polarity, improper maintenance, allowing the battery to be deeply discharged via a parasitic load or mishandling of the battery such as, but not limited to, using the terminals for lifting or carrying the battery.
- If your battery fails due to manufacturing defect during the Free Replacement Period, you may obtain a free replacement battery.
- NEITHER WE (AS THE STORE OWNER) NOR BATTERIES PLUS, LLC OR ANY OF ITS AFFILIATES (COLLECTIVELY THE "STORE PARTIES") MAKE ANY OTHER WARRANTIES, EXPRESS OR IMPLIED. THE STORE PARTIES DISCLAIM ALL OTHER WARRANTIES, INCLUDING, BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.
- Further, to the fullest extent possible under applicable law, the Store Parties will not be liable for consequential, incidental or punitive damages.
- Some States may not allow certain provisions of this limited warranty, so these provisions may not apply to you. No provision is intended to limit, modify, take away from, disclaim, or exclude any mandatory warranty requirements provided by any State whose law applies to your product, unless permitted by that State's law or federal law. This warranty gives you specific legal rights, and you may also have other legal rights, which vary from State to State.
- **Specific terms and conditions of warranty policies will vary by product type, and may be modified over time. For specific terms and conditions, please see a store representative, call 1-800-677-8278, or visit our website: www.batteriesplus.com.**
