

RELENTLESS PERFORMANCE.

LITHIUM

Best suited for deep cycle applications.

When there's an opportunity to be on the water, you drop everything & get out on the water. And which battery do you trust to power your equipment and electronics? X2Power Lithium marine batteries are the ultimate choice for anglers & boating enthusiasts who demand the best. Designed for reliable performance with outstanding deep cycle run time, and continuous high-power output, along with a low self-discharge between use. At 50% less weight than a lead acid battery, an X2Power Lithium is built for easy transport, and easy installation.

Faster Charging

Charging can be up to 4 times faster than a lead acid battery.

Trusted Performance

Lithium Iron Phosphate (LiFePO4) is the safest type of lithium battery and a ready-to-go replacement and upgrade from lead acid, AGM or gel.

Optimum Safety

Battery Management System (BMS) controls the parameters of the battery to provide optimum safety by protecting against over-charging and over-discharging.

10-year Warranty

If something goes wrong, we want to make it right. Return the battery to any Batteries Plus location nationwide and our experts will take a look.

Bluetooth

Allows you to get instant access to the battery state of charge (SOC), voltage, cycles and more.

APPLICATIONS

Marine

Kayak

RV

Camper

Bluetooth®

Bluetooth Capability

Allows you to get instant access to the battery state of charge (SOC), voltage, cycles and more.

Internal Threads

Internal thread terminal design makes for a secure connection and clean power flow.

MARINE & RV BATTERIES

MAINTENANCE & STORAGE

Be sure to properly maintain your battery to ensure the best and most reliable performance. **Note:** Lithium batteries require lithium battery chargers.

Lithium batteries should be stored at 100% state of charge (SOC).

Store in a cool, dry, well-ventilated location at the recommended storage temperature

Overcharging kills batteries.

Charge the battery before use if it is below 50% state of charge.

If battery is stored in higher temperatures, charge it more frequently.

If battery doesn't hold a charge, have it tested.

Bluetooth-enabled for battery status data through the X2Power free app.
